

INTERNATIONAL DISCOVERY SERVICES & CONSULTING

IDSC's Expert Witness & Patent Services:

Areas of Expertise, Bios, & Consultant Experience:

Clients Return Because They Recognize Value!

IDSC Serves it's Legal Clients as Expert Witnesses and Consultants in Litigation Matters by Bringing them Experts with:

- Successful careers in big pharma, averaging 25 years
- Experience attending legal proceedings & providing testimony
- Successful careers and expertise in most of the major pharmaceutical therapeutic areas
- Extensive deep niche careers in all of the drug discovery and development line disciplines (e.g. medicinal chemistry, formulation, PK/PD, pharmacology, clinical, etc.)
- Extensive experience in reading and interpreting patents and formulating genus and claims
- Experience in providing depositions and writing expert reports
- Knowledge of and an understanding of the implications of prior art
- Scientific and technical expertise

IDSC Serves its IP-related Legal Clients as Technical Experts and Consultants by Bringing them Consultants that:

- Provide analysis and opinion on scientific issues of importance to our client
- Review the scientific literature and provide context for our client
- Review and evaluate the patent landscape and help our client attain the optimal coverage and protection
- Synthesize scientific data and future plans into a fit for purpose genus

Fields of Expertise:

Therapeutic Areas:

- CNS
- Cardiovascular
- Dermatology
- Infectious diseases
- Inflammation
- Immunology
- Metabolic diseases
- Oncology
- Ophthalmology
- Pain

Line Disciplines:

- Medicinal chemistry
- Synthetic chemistry
- Process chemistry & API production
- Molecular modeling
- Pharmacology
- Analytical Development
- Formulation
- Packaging, fill, and finish
- Regulatory compliance
- Clinical study design

A Sample of IDSC's Expert Witness BIOs:

AJB, PhD: 25 years big pharma, 6 years Academics, 5 yrs biotech; oncology, metabolic disease; medicinal chemistry.

HNB, PhD: 35+ years big pharma and academia, clinical pharmacology, pharmacokinetics, PK/PD modeling.

BMC, MS: 32 years biotech & consulting, clinical development, regulatory, therapeutics, medical devices, ophthalmology, wound healing, dermatology, antibacterials.

LVC, PhD: 30+ years big pharma and academia, drug product development, formulation, regulatory processes.

JD, PhD: 30 years big pharma, global head, infectious diseases, med-chem, 30 clinical candidates, 8 compounds to the clinic.

DLH, MD, FACP, FIDSA: 31 years medical practice & big pharma (Merck, BMS), clinician, Phase 1-IV trial design, virology, antibacterials, antifungals.

SDL, PhD: 30 years big pharma (Pfizer, Pharmacia, Upjohn) and academia, med-chem, synthetic methodology, combinatorial chemistry, cardiovascular, diabetes, antivirals.

DM, PhD: 24 years big pharma; molecular modeling; CNS, cardiovascular, infectious diseases; 3 clinical candidates.

AMN, MD, PhD: 20 years biotech; immunology, inflammation; pharmacology; translational research.

RJP, PhD: 30 years big pharma, API management, process chemistry, manufacturing, cost analysis, chemical development, API processes, CMO identification and management, small molecules and natural products.

WCS, PhD: Over 30 years in big pharma, CRO, and consulting, extensive experience in analytical development, formulation R&D, and CMC regulatory.

RJS, PhD: 20+ year academia, & pharma, cardiovascular, pharmacology, therapeutics, devices, diagnostics.

CPT, PhD: 27 years big pharma; CNS; pharmacology; neurological disorders, psychiatric disorders, pain; gabapentin, pregabalin.

JWT, PhD: 30 years biotech; biologics; process development, formulation, analytical development, CMC, lyophilization, and stability.

It is Important to Have the Right Witness on the Stand!

Testimonial: A quote from one of the opposition's attorneys after deposing one of IDSC's consultants, JD... "In my entire career as an attorney, I have never seen a witness that knows the prior art as well as you do."

IDSC brings our legal clients that big pharma perspective and our consultants have that hands on experience in therapeutic areas that are being prosecuted now and for the next decade.

Our legal clients come to us because our expert witnesses have lengthy careers exposing them to a great breadth and depth of information and expertise. They have the skill necessary to critically evaluate the prior art, apply it to the case in question, and explain it in layman's terms.

We bring the right fit for purpose witness: We bring a medicinal chemist to comment on medicinal chemistry, a biologist to comment on biology, a PK expert to comment on PK, a formulation expert to comment on formulation, and so on.

Our legal clients come to IDSC because our expert witnesses have the credentials to show credibility through extensive research, long term experience, publications, field of expertise, etc.

From the literature: A university professor with no patent experience weighing in on a genus... commented on the utility and breadth of genus. Witness was discredited.
